# NIKKOR Z
## 40mm f/2 (SE)

SMALL BUT EXPRESSIVE

**The NIKKOR Z 40mm f/2 (SE) packs superb performance into a heritage lens design. From street scenes to candid portraits—capture just about anything with its distinctive 40 mm focal length (60 mm on DX-format cameras). Beautiful bokeh guaranteed.**

## FEATURES

### HERITAGE DESIGN
This special-edition lens brings a touch of iconic style to any Z camera. Design details from the era of SLR photography have been faithfully recreated from the original blueprints of Ai Nikkor lenses.

### GREAT IN LOW LIGHT
From spontaneous snapshots to carefully composed photographs, the wide f/2 maximum aperture lets you capture the mood of dimly lit situations with clarity and sharpness.

### BEAUTIFUL BOKEH
The f/2 maximum aperture also allows images with beautifully shallow depth of field. Putting your subject in sharp focus against softly blurred backgrounds has never been easier.

### SHARP UP CLOSE
A minimum focus distance lets you focus sharply even with the camera just 29 cm away from your subject.

### FAST, SILENT AUTOFOCUS
Powered by an ultra-quiet stepping motor and enhanced by the additional light gathered by the Z mount, focusing is fast, accurate—and silent.

### POCKETABLE AND PROTECTED
This lens is easily small enough to keep on the camera or slip into a coat pocket, and it's sealed to protect from dust and water droplets.[1]

[1] The lens is not guaranteed to be dust and drip resistant in all situations and under all conditions.
